First Command Bank offers innovative electronic deposit service
Deposits On Command™ allows customers to upload checks for deposit instantly

FORT WORTH, TEXAS – As part of its continuing commitment to bring the latest technology to customers and to safely make the banking experience easier and more convenient, First Command Bank recently introduced Deposits on Command™, a free service that allows eligible customers to scan and deposit checks instantly from anywhere with a computer and scanner.

“It’s our goal to continually deliver services that make banking easier for our customers,” said David White, president of First Command Bank. “We’re thrilled to offer our customers Deposits On Command™, and we think this service will help streamline their everyday banking tasks.”

Through innovative services like Deposits On Command™, First Command Bank offers banking for the way people live today, which means allowing customers to bank when and where they want.

And by enabling customers to instantly upload checks for deposit with a computer and scanner, Deposits On Command™ helps customers avoid waiting days for deposits sent by postal mail. Deposits submitted by 4 p.m. Central time on weekdays are posted the same day, allowing customers to better plan bill payments and manage daily budgets while reducing paperwork and postage costs.

“With much of the economy out of their control, our customers are always looking for ways to manage the aspects of their finances that they can control,” White said. “Taking out the guesswork associated with deposits seems so simple, but it can be very helpful for customers in balancing their checkbooks, paying bills and planning monthly budgets.”

The service launched in October, and has been well-received.

“We knew this would be attractive to our numerous clients outside the Fort Worth area,” White said. “But we have also been pleasantly surprised to find that many of our local clients simply appreciate the option of avoiding a trip to the lobby to make a deposit.”

First Command Bank continues to provide customers with tools that help them pursue their financial goals—whether saving money or paying down debt—and by simplifying the deposit process, Deposits On Command™ can help with these goals.
